In the Specification:

Please amend the paragraph beginning on page 1 at line 20 as follows:

The advent of the computer has led to the introduction of the Information Technology (IT) into education, like CAI systems. Moreover, a large number of educational techniques have already been proposed as e-learning, depending upon a recent wide spread of the Internet. The past-proposed educational techniques are to deliver teaching materials including texts and motion pictures, to students through a variety of existent delivery means such as post-mail transmission, facsimile transmission, and the Internet transmission, thereby to enable the students to try to solve some drill-type questions in time series for subsequent confirmatory tests. Use of this method has achieved certain successful results, particularly as a result of repetitive learning in the fixed range of the questions, for example, English examinations and qualifying examinations. One of the conventionally proposed educational techniques is disclosed in the Internet Web-Site, entitled "Fujitsu Info Software Technologies Web Site" since 1997, managed by Fujitsu Info Software Technologies Limited~~, at Internet <URL: http://naving.fsel.co.jp/index.html>~~.

Please amend the paragraph beginning on page 26 at line 21 as follows:

The descriptions will be made with reference ~~refereene~~ to FIG. 7. In a step B2, the ASSIGNMENT page 68 is displayed upon selecting the ASSIGNMENT tag in the step A14.
